S U M M A R Y

MERN Stack Developer with ~1 year of professional experience delivering production-grade full-stack web applications. Proficient in React.js, Next.js, Node.js, Express.js, and MongoDB. Track record of building real-world systems with REST APIs, JWT authentication, real-time features, and cloud deployment. 1st place winner at UCP Web Hackathon.

E X P E R I E N C E

MERN Stack Developer · *Developer Tag*

Jun 2025 – Feb 2026 · Lahore

- Built and shipped production full-stack applications end-to-end using the MERN stack
- Designed scalable RESTful APIs with JWT authentication, middleware layers, and MVC architecture
- Delivered Zest Restaurant Portal — role-based auth, payment integration, real-time Socket.io chat, analytics dashboards, and CRUD for deals and offers
- Delivered Shopify Inventory & Order Management System — live order tracking, inventory control, and role-based admin dashboard
- Built Strapi-based CMS applications enabling dynamic content management workflows
- Deployed and maintained production applications on Vercel, Railway, and Render

Frontend Developer Intern · *BeLike IT Group*

Jan 2025 – Mar 2025 · Lahore

- Delivered 3 client websites within 8 weeks — Pak Knowledge School, Indus Grammar School, BeLike Company
- Built responsive, cross-browser compatible UIs with clean UI/UX using HTML, CSS, and JavaScript
- Worked directly with clients to translate requirements into functional, user-friendly interfaces

P R O J E C T S

Zest Restaurant Management Portal [github ↗](#)

Stack: React.js · Node.js · Express.js · MongoDB · Socket.io · GSAP · Vercel

- Production restaurant system with secure auth, role-based access control, and protected routes
- Integrated payment workflows for deal access; full CRUD for deals, offers, and capacity tracking
- Real-time chat via Socket.io, animated UI with GSAP, deployed on Vercel

Shopify Inventory & Order Management System

Stack: React.js · Node.js · Express.js · MongoDB

- Real-time order tracking and inventory management system with role-based admin dashboards
- Full CRUD for products and orders with responsive UI and efficient data flow

ROM & BIOS Management CMS

Stack: Strapi · React.js · REST APIs · Nginx · FileZilla · Private Server

- Built Strapi backend with custom content models for ROMs, BIOS files, and device categories
- Developed frontend to browse, filter, and manage ROM/BIOS entries fetched via Strapi REST APIs
- Deployed full application on a private server — configured Nginx as reverse proxy, file transfers via FileZilla

S K I L L S

Technical Skills

HTML5 · CSS3 · JavaScript (ES6+) · React.js · Next.js · Node.js · Express.js · MongoDB · REST APIs · JWT Auth · Socket.io · Tailwind CSS · GSAP · Strapi · MySQL · TypeScript

Tools & Platforms

Git · GitHub · VS Code · Postman · Vercel · Railway · Render · Slack

Soft Skills

Problem Solving · Team Collaboration · Communication · Time Management · Adaptability

E D U C A T I O N

Bachelor of Science in Computer Science (BSCS)

2023 – 2027 · Lahore

University of Central Punjab (UCP)

A W A R D S

- 1st Place — Web Hackathon at UCP, competing against and outperforming teams from multiple universities
